

REACH Compliance Statement

January 01, 2016

Subject: Inside Track Cabling REACH Compliance Statement

On June 1st, 2007, the European Union Commission (E.U.C.) adopted REACH (Registration, Evaluation, Authorization and Restriction of Chemicals EC 1907/2006) regulating chemicals and their safe use. EC 1907/2006 will continue to be phased in through 2018. The aim of the REACH regulation is to ensure a high level of protection of human health and the environment from chemical substances.

Inside Track Cabling (ITC) supports the basic aim of REACH in improving the protection of human health and our environment through the better and earlier identification of intrinsic properties of chemical substances.

ITC's products are considered "articles" as defined in REACH Article 3(3). Our products/articles under normal and reasonable conditions of use do not have intended release of substances. Therefore the requirement in REACH for registration of substances contained in these products/articles does not apply.

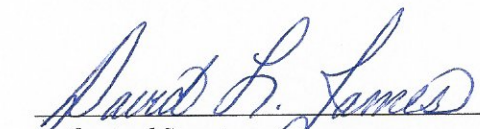

ITC's products/articles do not contain any of the Substances of Very High Concern (SVHC) candidates currently listed above the regulatory threshold of 0.1% nor does ITC's tonnage exceed one ton per importer per year. Therefore the requirement in REACH to notify ECHA of products/articles exceeding these limits is not applicable.

ITC will continue to work with our suppliers to ensure that all SVHC's are identified and if notification to the European Chemicals Agency, is necessary, to comply with the REACH requirement.

Inside Track Cabling (ITC) is committed to minimizing the impact of our products on both the public health and the environment that we share. We wish to assure our customers that our products are in full compliance the EU REACH requirement.

NOTE: THE REACH SVHC LIST IS DYNAMIC AND SHOULD NOT BE ASSUMED THE FINAL REACH CANDIDATE LIST. INSIDE TRACK CABLING ACCEPTS NO DUTY TO NOTIFY USERS OF THIS DECLARATION OF UPDATES OR CHANGES TO THIS DECLARATION.

Sincerely

Authorized Signatory
